

Erik Lehmann

BUILD TD

“Erik is the “egg-laying-wool-milk-pig” of visual effects - incredibly versatile and fun to work with. . . . While he’s amazing when working as a specialist it doesn’t do his true value justice. Motivated through and through, up to the last tip of hair he is keen to get his hands on everything new and exciting, wanting to master the last bit of the film making process. He is a creative and motivational force beyond imagination. And he’s just awesome as a human being in general, too.”

Florian Gellinger

Owner, RISE Visual Effects Studios

“[Erik] is an extremely talented modeller and always produced clean and technically sound models.”

Myles Aseter

Models Head of Department at Weta Digital
